

# Attention, Saloonists! Common Sense Talks

## Stop Wasting Money By Advertising!

### A BETTER WAY HAS BEEN FOUND!

It is said that out in Wichita, Kansas, they have found how to get the greatest number of men to drink the greatest amount of liquor.

In that city the thirsty soul is personally conducted through a long, dimly-lighted hall, up a stairway with no light, through another long hall with no light, the conductor takes a key from his pocket, unlocks a door, and with his charge enters a room with no light, knocks mysteriously at a door from which comes no sound and the two are admitted into a room in which are a saloon, bar and many drinkers.

When, as it is alleged, so much more liquor can be sold by hiding it away like that where only the initiated and trusted can find it, why do you spend good money advertising along the public roads on specially constructed bill boards, 3 feet by 6 feet, with the striking figure of a government officer in military cap and uniform assuring the passer-by that the Government is behind every gallon of Sunny Brook liquor?

## Learn Better Business Methods

Learn from the Prohibition states how to sell the greatest amount of liquor!

One of the most prominent men in the city told the writer of this eminently successful plan of increasing the consumption of intoxicating liquors and I pass it on to you.

This citizen will vote to perpetuate the saloon in Maysville because he is afraid that some one here will adopt the long, unlighted, unadvertised hall method and increase the consumption of liquor in our midst.

## NOTE, Brewers and Distillers

This prominent citizen is voting against your interests. He wants to keep the sale of liquor at the minimum by perpetuating the old, antiquated, ineffective method of selling it through the open saloon.—Adv.

Miss Emma B. Lammann left Saturday night for New York, in the interest of her business. Mrs. Harry Clark and Miss Stella Archibald accompanied her.

Mr. John Browning left Monday night for Washington to prepare for entrance into the West Point-Annapolis preparatory school at the National Capital.

Mrs. Anna Condon of North Vernon, Ind., was called here by the death of her son, Mr. John Condon of near Maysville. She was accompanied by her son, Mr. Patrick Condon, and her daughter, Mrs. L. Wickens.

Mr. Cecil Sharp and Gilbert Early attended a dance at Paris, Monday night.

It has been suggested by the advocates of prohibition that the voters of Mason County outside of the City of Maysville have no interest in the welfare of Maysville. Let us see.

Fully 90 per cent of the products of Mason County is marketed in and through Maysville. Fully 90 per cent of the commodities used in Mason County are procured in Maysville. A large part of the financial enterprises of Mason County are financed in Maysville. The farmer can procure anything that he needs or wishes in Maysville. He can sell anything he has in Maysville at a fair market price in Maysville, and he can sell it at any time, and he can sell it for cash.

In these matters, however, Maysville and Mason County are helpful each to the other. The inter-dependant and mutually helpful to each other. The merchant courts the farmer, and profits by his patronage. The farmer patronizing the merchant and makes or saves by doing so. Both are therefore mutually benefitted. Every farmer values his land higher in proportion to its availability to Maysville markets. Every merchant values his business because of the patronage derived from the rich agricultural communities in Mason County.

There is a further reason why Mason County is interested in the welfare of Maysville.

Maysville has approximately fifteen miles of public streets, sidewalks, and thoroughfares. These have been constructed at a cost, to Maysville, of nearly \$500,000, and are maintained at an annual expense, of from \$6,000 to \$10,000. Not one cent of this money ever came from any source outside of the City of Maysville. The public, generally, have the free use of these streets, sidewalks, and thoroughfares. The people from the county having as much privilege and use of them as the citizen of Maysville, and the citizens of Maysville are always pleased to have the people from the county to use them, and have never asked a dollar from the county for their construction or maintenance.

Now, since the advent of free turnpikes in Mason County, Maysville has contributed approximately \$150,000.00 to the construction and maintenance of these roads. She contributes annually, to the fund for free turnpikes, approximately \$10,000.00. Although she constructs and maintains her own public thoroughfares solely at her own expense.

Maysville could not be compelled to pay this annual tribute if she cared to contest it. She has never desired to do so, feeling that good roads contributed materially to her prosperity, and that free turnpikes added greatly to the aggregate of her business. No one will say that Maysville should justly contribute this sum, annually to the free turnpike fund of Mason County, and yet be compelled to bear the whole expense of her own public thoroughfares, yet this is what she has continually done without complaint. The sum contributed annually by Maysville to the free turnpike fund, which is solely for the bene-

fit of Mason County, and the expenses which she undergoes in keeping up her own thoroughfares, for the benefit of her own citizens and those of Mason County, just about equals her annual receipts from liquor licenses.

If Maysville did not contribute this annual sum of \$10,000 to the free turnpike fund then it would have to be obtained from the property lying outside of the City of Maysville in Mason County, and it would necessarily mean greater taxation for the property holders in Mason County. This conclusion is absolutely unavoidable, as the pikes must be kept up. In three years this would amount to \$30,000.00.

Less than 1500 people in Mason County pay taxes on property assessed at more than \$1,000.00. This would, therefore, make an additional tax approximately \$20.00 each, on every average tax payer.

Does every such tax payer feel like voting \$20.00 out of his own pocket, in order to try an experiment, which has been an absolute failure, morally and financially in every metropolitan community in which it has ever been tried?

### HORSE THIEF CAPTURED.

Frank Keelman, aged about 25, was arrested near Petersville, Lewis county, yesterday and brought to this city and charged with stealing a horse from the lot of Mr. Dan Maher, on the Pleasant Ridge Pike, near Murphysville.

Mr. Charles Slattery and Mr. Mahir's son, William trailed Keelman in an automobile and when they went into Lewis county they got Deputy Sheriff Lykins to go with them and make the arrest.

They found that Keelman had sold the horse, saddle and bridle to the Sheriff's son for \$50.

Keelman was placed in jail and will be given a hearing later.

## KENTUCKY'S BAD SHOWING.

The Evening Post of Louisville reprints from an automobile journal a list of figures showing the number of automobiles in each state. Kentucky has only 6,376 and is ahead of no state save West Virginia, Utah, Arkansas, Arizona, Oklahoma, Montana, Delaware, Idaho, Louisiana, New Mexico, Wyoming, Mississippi and Nevada. Even teeny weensy Rhode Island has twice as many automobiles as Kentucky. Florida, with a small mileage of good roads, has 9,578. Little Maryland has three times as many as Kentucky. Minnesota has ten times as many. Indiana has 50,000 more automobiles than Kentucky. Think of it.

And why?

Underdevelopment, lack of railroads, electric and stent, a vicious taxing system which discourages the investment of capital.

Kentucky is way behind the times in some respects. Isn't it time to confess it frankly and set about intelligently the business of getting up to date? When Indiana's prosperity is reflected by the ownership of 50,000 automobiles in excess of the number in Kentucky, let us have no more bombast about the good whisky, the fast horses and the beautiful women of Kentucky. Let us talk, not pessimistically, but constructively, about what ought to be done to make Kentucky rich enough to own about 50,000 more automobiles.—Frankfort State Journal.

## PITY THE GERMAN CHILDREN

### THE COMING WINTER.

"The German school system is bound to receive a serious set-back by the present war," declared Dr. J. M. Withrow, President of the Board of Education. Dr. Withrow had returned home from Europe Sunday. "When I left Germany there did not seem to be any likelihood of the schools opening for the winter. The school plants were being used pretty generally everywhere as recruiting stations and temporary barracks for newly organized regiments or troops passing through. I could not learn, though I tried, whether or not the teachers were being called to military service. Even after the mobilization there seemed to be plenty of men of the military age left in Munich and the other cities I visited, though in the country districts this was not true—everybody had gone from there. So I suppose there was some condition under which men were exempt from service."—Times-Star.

## "CIVILIZED BARBARIANS," MAYBE.

Is there any such thing as Christianity in the world? Is the thing we call "Civilization" a myth? Because the Courier-Journal has been saying that the Brotherhood of Man has not yet arrived, it has been charged with being an enemy of peace. Because it has advocated at times drastic measures intended to save life and property—as the occupation of Mexico for example—it has been accused of being a jingo. God forbid!—Courier-Journal.

## SOMETHING TO WORRY ABOUT.

This is a mean old world. The prettier a girl is the oftener she has been kissed before you get a chance.—Luke McLutke.

## WAR AND THE TARIFF.

Intimations are given out from Washington that the loss of revenue from customs, due to the falling off in imports owing to the European war, must be met in some way. On the one hand it is proposed to levy new taxes, on the other to raise money to meet the threatened deficit by a sale of bonds.

The sale of bonds would be the better way. By the sale of bonds gold would be drawn into the Treasury and the bonds be available for additional circulation by the banks.

The errors of the Wilson Tariff are thus again made evident. Under the Payne-Aldrich Tariff the Treasury was kept full to overflowing and in a condition to meet any emergency demands. Under that tariff and the Dingley Tariff the country had ample money to pay all expenses and build the Panama Canal, without any hint of a deficit. Yet under the Wilson Tariff plan the first strain finds the country face to face with the need for getting more money for the Treasury.

A deficit in revenue was in sight, war or no war. Its appearance will give the administration a good excuse for blaming the war for its own shortsighted policy in tariff making.—Binghamton, N. Y., Republican Herald.

## CIVILIZATION DOETH PROTEST TOO MUCH.

As for the demonstration of aerial offense, the story from Antwerp is not to the credit of the air gunners. It is not to be assumed that they intended to devastate private dwellings and slaughter innocents. That result was due to the inaccuracy of their aim and the inefficiency of their craft as a fighting machine. If offensive warfare from the sky is necessary to be accompanied by such unintentioned slaughter, civilization will protest against it.—Philadelphia Bulletin.

## LET EVERY INFLUENCE BE FOR PEACE.

The war in Europe has set in motion forces so colossal and stirred passions so profound that talk of peace may at the moment appear futile and idle. Yet the world is increasingly controlled by the sentiment of its people, and no effort to bring about peace, be it ever so small, is without its effect.

Mankind everywhere is opposed to war, and the terrible lesson of Europe has increased that sentiment amazingly.—Hamilton, O., Republican.

## STAR SPANGLED BANNER.

The Star Spangled Banner will be sung in all the Kentucky schools on September 14th, if the recommendation of the State Superintendent be heeded. That day will be the anniversary of the writing of Francis Scott Keyes' national song. It will require no special effort to comply with this call in the Maysville schools, for almost daily it is sung now and has been for several years.

## THE WORLD'S O. K. IS ON GRAPE JUICE.

Grape juice diplomacy seems to have kept the United States in good shape though the chief ingredient is weak and inoffensive.—Commercial Tribune.

A Socialist writer, in bemoaning the fact of war, says: "To me the tragedy is that whoever wins, my brother is defeated." It is too bad that the world did not thrill with that sentiment before the war started. All attempt to place the blame for the war is unwise and mostly unfair, but this one underlying cause may be asserted—the lack of the sense of brotherhood.—St. Paul Pioneer Press.

And the "innocent bystander" is just now having the time of his life in Europe saving his own corporosity.

IDENTIFYING HIMSELF.

"What are you anyway," contemptuously inquired Mrs. Peck during the quarrel, "a man or a mouse?"

"A man," answered Henry Peck, bitterly. "If I were a mouse I'd have you up on that table right now yelling for help."

### WARD TESTIMONY

Many Maysville Citizens Have Profited By It.

If you have backache, urinary troubles, days of dizziness, headaches or nervousness, strike at the seat of the trouble. These are often the symptoms of weak kidneys and there is grave danger in delay. Doan's Kidney Pills are especially prepared for kidney ailments — are endorsed by over 30,000 people. Your neighbors recommend this remedy—have proved its merit in many tests. Maysville readers should take fresh courage in the straightforward testimony of a Maysville citizen.

Honry Gallenstein, blacksmith, Poplar St., Maysville, Ky., says: "Doan's Kidney Pills are the best of kidney remedies. I have used different kinds and no other has ever equalled this one. When my kidneys were out of order and I had pain in my back, I heard of Doan's Kidney Pills and used them. They stopped the pain and my kidneys became strong. The cure has been permanent."

Mr. Gallenstein is only one of many Maysville people who have gratefully endorsed Doan's Kidney Pills. If your back aches—if your kidneys bother you—don't simply use any kidney remedy—ask distinctly for Doan's Kidney Pills, the same that Mr. Gallenstein had—the remedy backed by home testimony. 50¢ all stores. For several years the converts in Uganda have numbered seven or eight thousand a year.

There are in India perhaps six million pupils in government and mission schools, a large part of this number studying English.

The Young Men's Christian Association of Constantinople reports 481 members at the end of three months from the date of its organization. Sixteen nationalities are represented in its membership.

The first missionaries entered Korea in 1884. Today there are about 200,000 Korean Christians and the number is increasing so rapidly as to cause serious embarrassment to those who seek to guide the movement and make it enduring.

The work of the Methodist Episcopal church in Europe began in 1849, the first missionary, Rev. Ludwig S. Jacoby, going that year to Bremen. In 1852 work began in Sweden and Norway and in 1857 in Denmark and Bulgaria. In 1872, Rev. Leroy M. Vernon being the first Methodist missionary to that country. In Russia and France the work dates from 1907.

Rev. Otto Lieber, a converted Jew, sailed recently from New York for Pagan, Burma, where he goes as a missionary under the Methodist Episcopal Board of Foreign Missions. He is a graduate of the Bible Teachers' Training School of New York. Ten years ago he was converted in Hadley House Hall and he is the first convert of that famous mission to go to the foreign field.

#### FIFTY THOUSAND LIFE INSURANCE.

Mrs. Robert C. Talbott, of Paris, who died at the Good Samaritan hospital, Lexington, carried fifty thousand dollars in life insurance. She had carried this amount for about six weeks.

The small demand for crude oil, attributed by conditions due to the war in Europe, has caused a still further reduction in petroleum production in Kentucky.

## THE MATCHLESS MIDWAY COMING

"Beat Last Year," Is the Slogan of the State Fair Management

"Beat last year!" is the slogan of the State Fair management which keeps the efforts and energies of the entire working organization on the crescendo each season and which makes a forecast for the coming celebration a dizzying process, but for the fair of September 14-19, Secretary J. L. Dent has achieved a coup in securing the Rice & Dore aggregation for the Midway that places the amusement end of the twelfth annual festival safely under the wire of victorious superiority.

Than the Rice & Dore Carnival shows there is no better organization of the kind extant and they will offer pleasure seekers at the fair a lengthy list of new and alluring novelties.

Among the number will be the Water Circus, unique adjunct to a traveling organization. The Water Show is an aggregation of aquatic marvels in which thirty performers take part, and which all the wonders and witcheries of the New York Hippodrome Tank is displayed. There are world's champion male and female divers and swimmers, log rollers, water walkers, high diving dogs and ponies, clown stunts and the amazing fact that whenever a performer's act is finished they disappear beneath the waves never to appear visible on the surface again, during that particular show, at least. The exhibition is a whirlwind of fun, mystery, beauty and thrill, devoid of a single objectionable or risqué feature and something that State Fair audiences have never witnessed heretofore.

Another out of the ordinary and exceedingly valuable exhibition will be a working model of the Panama Canal in charge of Captain Ladere, who worked under Colonel Goethals in Panama and who knows as much about the "big ditch" as an encyclopedia. Boats will pass back and forth carrying spectators over the facsimile of the canal and enabling them to witness the working of the Culbertson and the locks in perfect miniature.

The autodrome, with big cars taking the place of cycles in dashing their drivers around the inside of a globe at speed that renders them almost entirely invisible, will be a factor in the Midway excitement.

Kilne & Garnett's Wild West Show will look like a "Buffalo Bill" aggregation at its palmyest. Kilne is the champion cowboy rider of the world and Garnett, the champion trick roper. In addition to their own exhibitions they have a company of star rough riding performers and wonderful trained animals which go to make up one of the best "wild and woolly" outfits in the show world.

In addition to these headlines the Midway will boast a remarkable mechanical device called "A Trip to Mars," a "Haunted Roulette Wheel," which is a "scream," a Congress of Fat Folks; a 10 to 1 layout of curiosities.

### STOMACH TROUBLES

Mr. Ragland Writes Interesting Letter on This Subject.

Madison Heights, Va.—Mr. Chas. A. Ragland, of this place, writes: "I have been taking Theodor's Black-Draught for indigestion, and other stomach troubles, also colds, and find it to be the very best medicine I have ever used."

After taking Black-Draught for a few days, I always feel like a new man. Nervousness, nausea, heartburn, pain in pit of stomach, and a feeling of fullness after eating, are sure symptoms of stomach trouble, and should be given the proper treatment, as your strength and health depend very largely upon your food and its digestion.

To get quick and permanent relief from these ailments, you should take a medicine of known curative merit.

Its 75 years of splendid success, in the treatment of just such troubles, proves the real merit of Theodor's Black-Draught. Safe, pleasant, gentle in action, and without bad after-effects, it is sure to benefit both young and old. For sale everywhere. Price 25c. N. C. 127

### IS YOUR BABY A "PERFECT" DARLING

Every Mother Thinks Her's Flawless The Babies' Health Contest Will Tell—Scientific Examination and Competition.

"Isn't it a perfect darling?" admirers of "Kling Baby" might exclaim, but the modern mother, instead of heaping with pride as of yore, will turn an appraising eye on her adored youngster and wisely murmur:

"I don't know, but I'm going to find out in the Babies' Health Contest at the State Fair."

And in this reply is demonstrated the march of progress which leads a fair management to feature a baby show based on scientific appraisal of the physical condition of a child instead of on the beauty of its dimples, curls or limpid eyes, and the growing enlightenment of parents who seek to discover the shortcomings of their offspring as the scientific stock raisers gauge the merits of their cattle, instead of glowing over ephemeral loveliness which might soon be dimmed by ailments or deformities unsuspected by baby's loving guardians.

The Health Contest is a movement which has swept with amazing rapidity over the entire country and was introduced at the State Fair last season for the first time in the history of the State.

The object of the Health Contest is the promotion of hygienic methods in child raising along much the same lines as fair exhibitors follow in scientific stock raising and appraising.

The movement was first introduced as an offspring of the Mothers' Health Congress held at the Louisiana State Fair at Shreveport in 1908, and the importance of the results were so universally recognized that states nearly all over the union rapidly followed suit.

The Babies' Health Contest will, this year, be under the supervision of Mrs. John D. Woodbury, and examinations will be made during the first three days of the Fair in a newly constructed Babies' building which will have transparent walls through which spectators may observe the processes of measuring and weighing the toddlers. Babies from 12 to 36 months are eligible and the entry lists will not close until September 8. Entry blanks for the Babies' Health Contest may be obtained by application to Kentucky State Fair headquarters in the Paul Jones building.

In deference to numerous inquiries and requests last season for an entry class for twins in the Babies' contest, this department has been added and twins will be judged on a separate standard of merit.

The Kentucky State Fair management has arranged a free amusement program which alone is worth the price of admission.

### PLOW THIS FALL

And Thus put Crimp In Drouth, Says Agricultural Expert.

St. C. Cornman—whose name sounds as if it might be a monde-plume—tells the readers of the Journal of Agriculture how to put a crimp in the next drouth, as Kentucky has just experienced a destructive drouth, what he has to say is of timely interest and we commend it to the readers of The State Journal.

Mr. Cornman's agricultural gospel is, "plow this fall and conserve the winter moisture." Plow in late fall and winter and let the snows and rains soak into the soil instead of running off an unplowed surface. Farmers who plowed the ground last fall or winter got better crops than those who waited till late in the spring when the rains had been succeeded by hot dry weather and plowed a baked cloddy soil. In the opinion of Mr. Cornman, fall and winter plowing does not damage land by loss of plant food or leaching.

There is, of course, a good deal of hill ground in Franklin county which is not well to plow in the fall and leave to the mercy of hard winter rains which cause "washes" that would not be caused by summer rains with the land plowed often and in a measure protected by a growing crop. But winter plowing for that or moderately "rolling" land should conserve moisture. It also conserves labor expense because it may be done when there is less work to do than there is in the spring.

### BIG SUM IN SUGAR

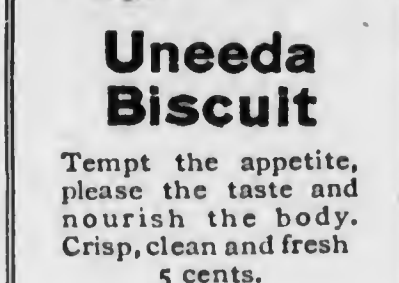

An Order For Twenty-seven Car Loads Brought in \$27,000.

Xenia, Ohio—It is reported that the recent sudden rise in the price of sugar netted Col. H. E. Schmidt, one of the longest-headed and shrewdest buyers in the state, something like \$27,000.

According to the story current Col. Schmidt, foreseeing a rise in the price, bought something like twenty-seven car loads. A car load is composed of 400 100 lbs. bags of sugar.

Some of the sugar was, it is stated, resold to the brokers from whom it had been purchased.

Efforts to communicate with the thirteen miners imprisoned since Friday in a mine at Adamson, Okla., were unsuccessful, and it is believed the men are dead.

### FEELS LIKE A NEW WOMAN

As Lydia E. Pinkham's Vegetable Compound Dispelled Backache, Headaches and Dizziness.

Piqua, Ohio—"I would be very ungrateful if I failed to give Lydia E. Pinkham's Vegetable Compound the praise it deserves for I have taken it at different times and it always relieved me when other medicines failed, and when I hear a woman complain I always recommend it. Last winter I was attacked with a severe case of organic weakness. I had backache, pains in my hips and over my kidneys, headache, dizziness, lassitude, had no energy, limbs ached and I was always tired. I was hardly able to do my housework. I had taken Lydia E. Pinkham's Vegetable Compound on one other occasion, and it had helped me so I took it again and it has built me up, until now I feel like a new woman. You have my hearty consent to use my name and testimonial in any way and I hope it will benefit suffering women."—MRS. OPHIA TURNER, 431 S. Wayne St., Piqua, Ohio.

Women who are suffering from those distressing ills peculiar to their sex should not doubt the ability of Lydia E. Pinkham's Vegetable Compound to restore their health.

If you want special advice write to Lydia E. Pinkham Medicine Co., (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

### WAR WILL BREED NEW INDUSTRIES

It Proves That We Cannot Afford to Be Dependent Upon Europe for Anything.

(Washington Post.)

Out of the present war in Europe there is certain to come a strong demand in this country for the fostering of new industries which will produce the articles now obtained from foreign countries. The growth of the tin-plate industry in the United States immediately following the establishment of a protective tariff is an example of what can be done with regard to other industries not located in this country at the present time.

The war is showing that the country cannot afford to be dependent upon Europe for anything necessary to the growth and prosperity of the United States. Realizing the opportunity for driving the argument home at this time, A. D. Juillard, chairman of the executive committee of the American Protective Tariff League, has sent out a request to all manufacturers and producers, as follows:

Please report to us any article or articles, raw material or finished product, of use in agriculture, mining, or manufacturing in the United States for the supply of which we are dependent upon any foreign country.

The census thus taken should be invaluable to Congress when that body turns to the task of restoring the Protective Tariff. It will be found that there are a great many articles which might be produced here if the proper protection were afforded. Just as the country had a striking example of what protection can do in the quick growth of the tin-plate industry, the reverse side of the argument has been shown in the closing of many factories since the tariff was lowered.

The country is depending to a very large extent on Chile for agricultural fertilizers. Millions of dollars are paid annually to that country for the nitrate needed by the farmers of the United States. Nevertheless, when large nitrate interests tried to locate in the United States they were discouraged and went to Canada, which is now collecting additional revenue from what should be a strong American industry.

Many lessons may be learned from the European war, but none of more importance than the lesson that the United States must make itself economically independent of the world so far as may be possible.

### ABOUT STEEL BRIDGES

To All County Judges, County Attorneys, Magistrates and County Road Engineers.

Gentlemen: I wish to call your attention to the fact that the life of steel bridges depends on the care which they are given, and one of the things that you cannot afford to overlook is that of painting.

Your bridges should be painted this fall before the weather gets bad, and you doing so you will prevent them from rusting out during the winter months.

I would advise that the best results can be obtained by the county purchasing the paint and employing some reputable man to do the work. Good bridge paint can be bought for about \$1.50 per gallon and a rough rule is to buy one gallon of paint for each foot for every ten feet in length of bridge. We also recommend the use of red lead ground in linseed oil for the painting of bridges. This will preserve the bridge for about five years, provided the bridge is thoroughly cleaned of all rust and dirt before painting and two coats are applied.

The steel can best be cleaned of rust, grease, dirt, etc., by the use of a wire brush of sharp edged tool.

In case two coats are applied they should be of different colors.

This Department will be glad to furnish estimates of cost of painting bridges, provided the length of span, width of roadway and the height of trusses are furnished us.

The Department of Public Roads maintains a corps of competent engineers to assist you in your road and bridge work and any service rendered is free of cost to your county.

Yours truly,  
ROBERT C. TERRELL,  
Commissioner of Public Roads.

### BRODT SHOP PLANT QUITS

Finishes Up Season's Bookings and Plant Turned Over to Receiver.

Portsmouth, Ohio.—The Brodt Shoe Company's plant on Front street shut down indefinitely, having finished up its season's work.

The plant is now in the hands of C. M. Weyand, former assistant manager, as receiver and its future is as yet a matter of doubt. The closing of the plant, which had a capacity of 600 pairs of shoes daily, and which manufactured misses' and children's shoes, has thrown 125 persons out of employment. The plant is splendidly equipped, having been modernized a little over a year ago.
